

# Facebook 登入 ID 建立辦法

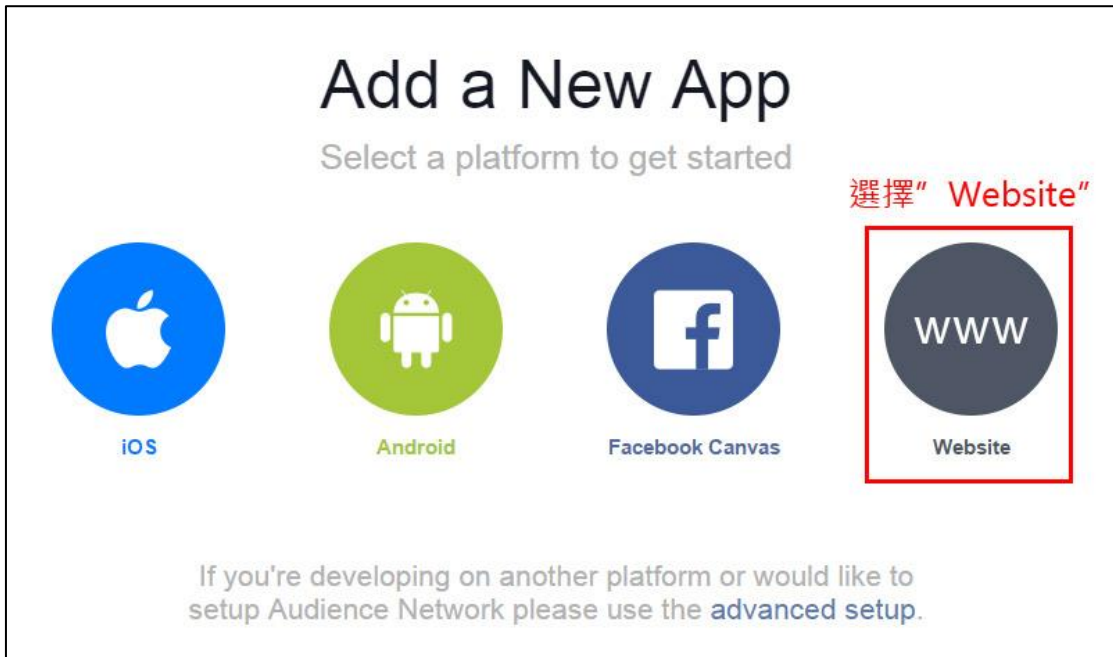

The screenshot shows the Facebook Developers homepage. At the top, there is a navigation bar with links for Developers, My Apps, Products, Docs, Tools & Support, and News. A search bar is located on the right. Below the navigation bar, there is a section titled "Become a Facebook Developer" with the subtitle "Build great social apps and get more installs". To the right of this section, there is a green "Register Now" button highlighted with a red box and the annotation "2. 按下按鈕". Below this, there is a red annotation "1. 前往 https://developers.facebook.com/apps/". The main content area features a grid of links categorized into Products, SDKs, Tools, Support, and News. At the bottom, there are links for About, Create Ad, Careers, Platform Policy, Privacy Policy, Cookies, and Terms, along with the text "Facebook © 2015 中文(台灣)".

The screenshot shows a dialog box titled "Register as a Facebook Developer" with a close button (X) in the top right corner. The dialog box contains a profile picture placeholder and a question: "Do you accept the Facebook Platform Policy and the Facebook 隱私權聲明?". The word "是" (Yes) is highlighted with a red box and the annotation "1. 改成 '是'", indicating that the user should select "Yes". Below the question, there are two buttons: "取消" (Cancel) and "登記" (Register), with the "登記" button highlighted by a red box and the annotation "2. 按下登記".

# Add a New App

Select a platform to get started

選擇“ Website”

iOS      Android      Facebook Canvas      Website

If you're developing on another platform or would like to setup Audience Network please use the advanced setup.

Start Over      Skip and Create App ID

www

## Quick Start for Website

webLogin 1.輸入 App 代號名稱(自訂) ×

Create New Facebook App ID 2.送出

### Create a New App ID

Create webLogin App?

類別

選擇一個類別

1.選擇類別

2.按下“ Create”

- ✓ 選擇一個類別
- 促銷與競賽
- 健康與健身
- 參考
- 商業類
- 地區性服務
- 天氣
- 娛樂類
- 實用類
- 專頁應用程式

Setup SDK App Configuration Test Finished

### Setup the Facebook SDK for JavaScript

The following snippet of code will give the basic version of the SDK where the options are set to their most common defaults. You should insert it directly after the opening `<body>` tag on each page you want to load it:

```
<script>
window.fbAsyncInit = function() {
  FB.init({
    appId      : [redacted], 1. 已經成功獲得一組ID，可以先記起來
    xfbml      : true,
    version    : 'v2.5'
  });
};
```

Developers **My Apps** Products Docs

Search apps by title

**webLogin** App ID: [redacted]

這裡可看到剛剛建立的App  
點擊進入設定

webLogin **Dashboard**

進入控制台後，點選左邊的“Settings”

- Dashboard
- Settings**
- Status & Review
- App Details
- Roles
- Open Graph

**webLogin**

This app is in development mode and can only be used by app admins, developers and testers

App ID	API Version [?]	App Secret
[redacted]	v2.5	..... Show

### Get Started with the Facebook SDK

Use our quick start guides to set up the Facebook SDK for your iOS or Android app, Canvas game or website.
